PROFESSIONAL EXPERIENCE

E-commerce & Operations Executive | Jan 2025 - Present

Near-Earth Object

- Manage day-to-day marketplace operations across Amazon Seller Central, Myntra Seller Portal and AJIO Luxe Seller Panel.
- Create and maintain product listings, including titles, descriptions, attributes, images, pricing and catalogue information.
- Handle order processing, inventory updates, in-house sales operations, dispatch coordination and logistics follow-ups.
- Monitor marketplace sales and performance metrics and execute promotional activity to improve visibility and sales.
- Developed and manage the company e-commerce website, including ongoing product, content and operational updates.
- Create AI-assisted jewellery visuals, virtual-model imagery and promotional videos for marketing campaigns.
- Build n8n workflows for WhatsApp and Telegram chatbot automations and AI voice-agent flows using Vapi.ai.

Founder / E-commerce & Digital Operations

 | Wear Wild Card

- Built and manage the Wear Wild Card Shopify website, handling store setup, product pages, collections, navigation, inventory and ongoing website operations.
- Customize Shopify themes and make front-end/code-level website changes to improve layout, functionality and the customer shopping experience.
- Manage product uploads, catalogue information, pricing, inventory, merchandising and day-to-day Shopify administration.
- Create and manage Meta advertising campaigns and ad creatives for the brand, including campaign assets, copy and conversion-focused product promotions.
- Use performance insights from advertising and store activity to support product, creative and marketing decisions.
